SECURE & CUSTOMIZABLE VIDEO CHAT - AMAZON CHIME SDK

How Are You Virtually Connecting With Your Customers?

Your Current Options...

INTERRUPTIONS

Slow or unreliable
network connection

EXPENSIVE

High costs and
license obligations

NOT SECURE

Sensitive or
regulated data
transferred through
unsecure connection

NOT SCALABLE

Difficult to scale

There Is A Better Way

WITH AMAZON CHIME SDK

AFFORDABLE AND RELIABLE

At just \$.0017 per minute and 99.9% availability, you can stay ahead of the curve with audio and video powered by Amazon Chime to support business critical workloads.

TRUSTED AND SECURE CONNECTION

Your organization deserves a secure connection you can trust to deliver critical, sensitive data. Why give away your data when you can own it, manage it, and use it to enhance your organization? Our end-to-end encryption plus PCI and HIPAA compliance open up a world of possibilities.

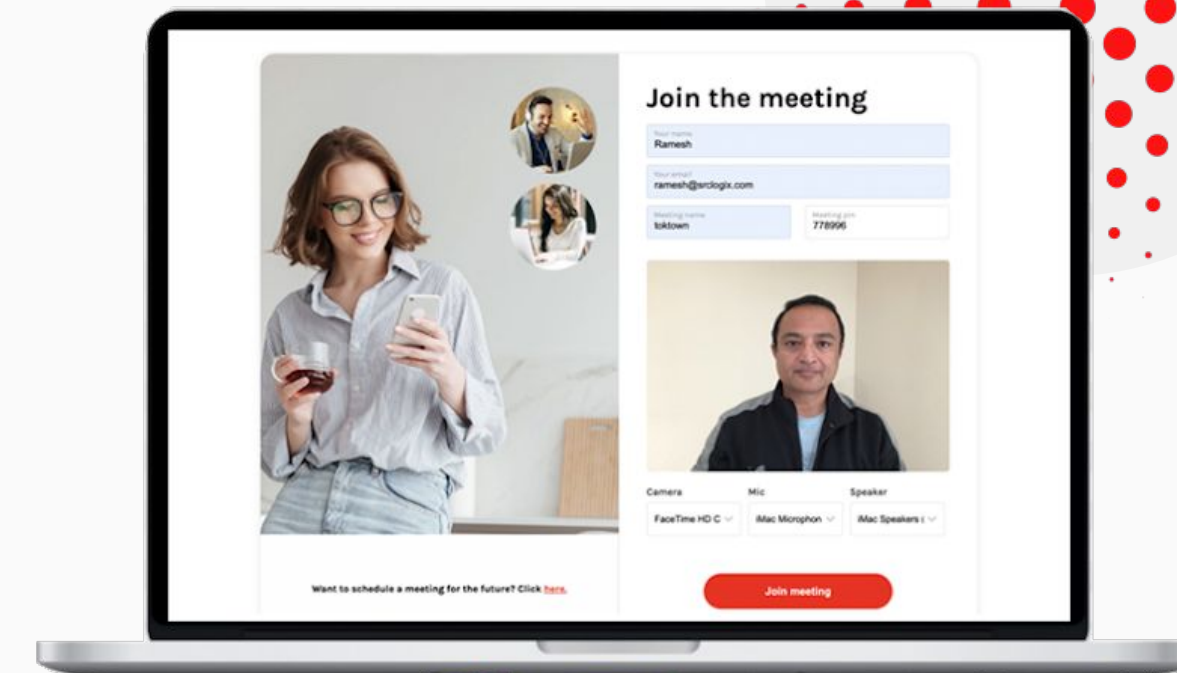

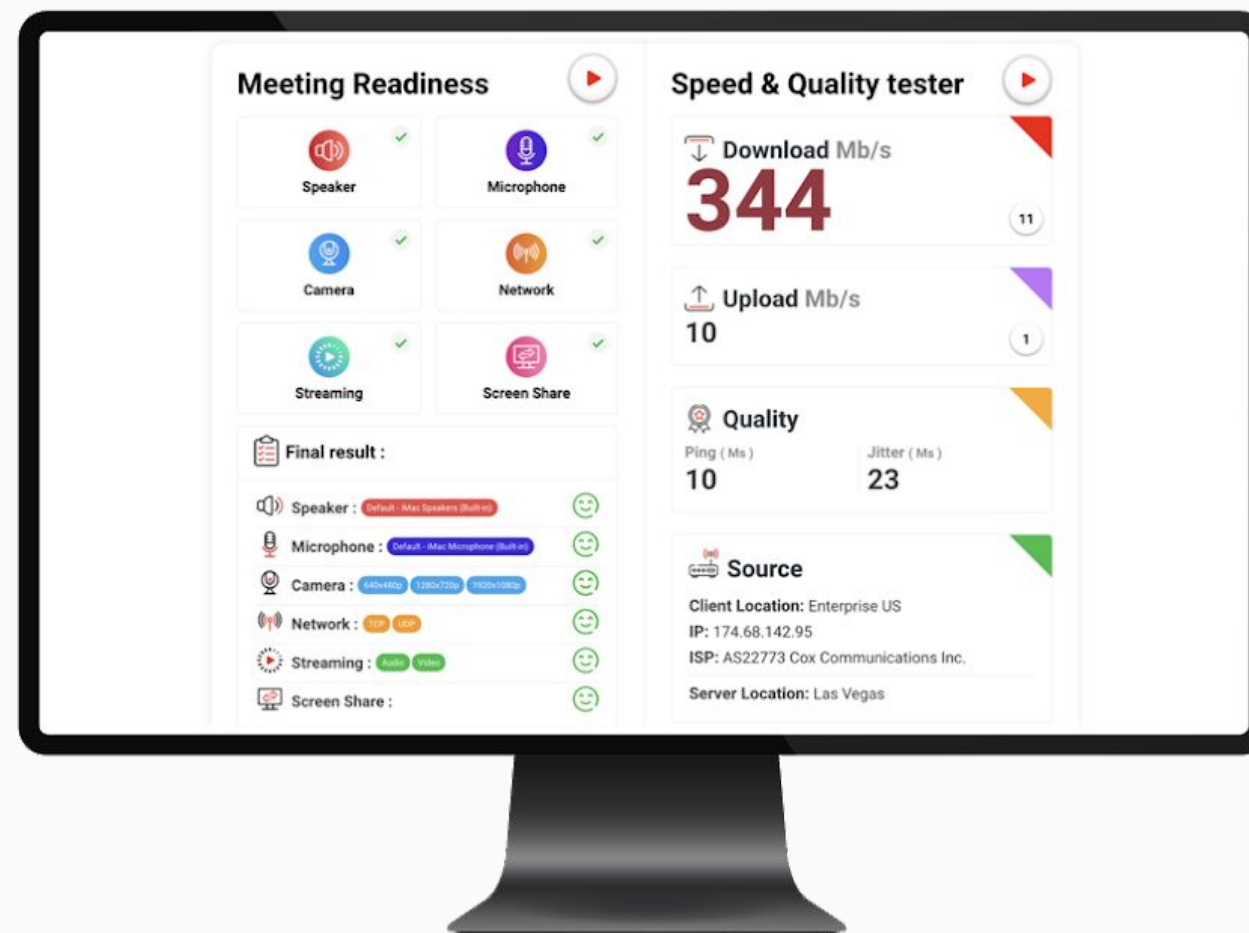

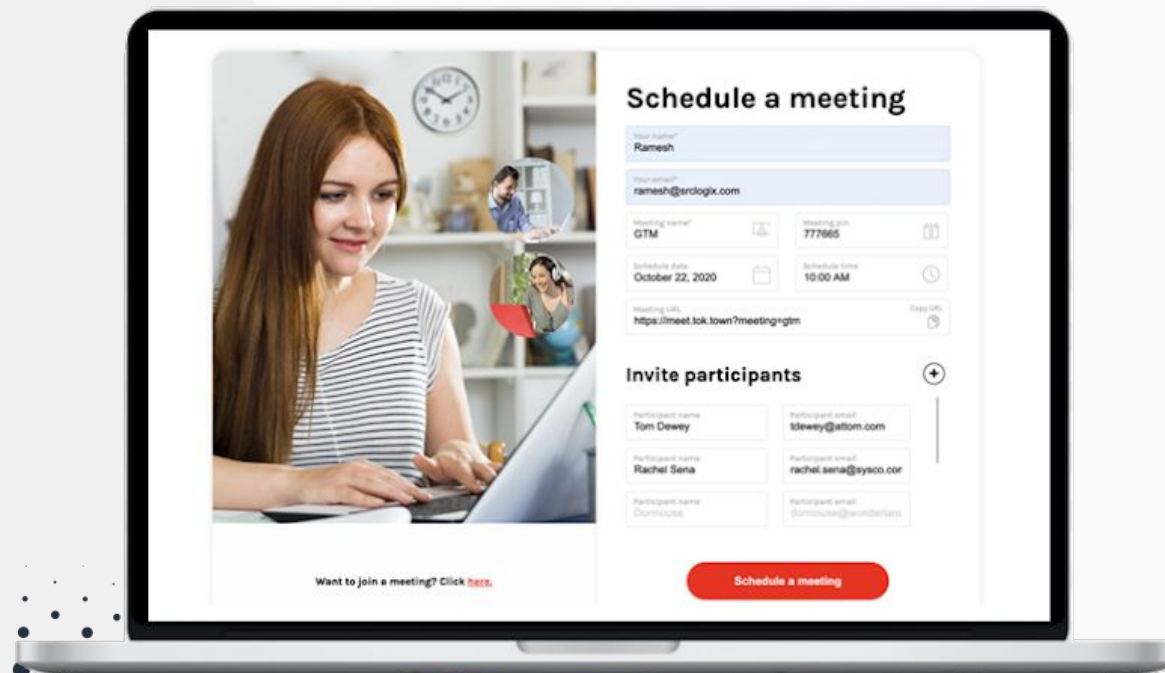

EASY TO SETUP AND SCALE

To keep up with growing demand— both capacity and geographical coverage — your organization can quickly and easily embed customized voice and video experiences. Leverage Amazon's unmatched global infrastructure to scale and grow your business.

Customizable Video

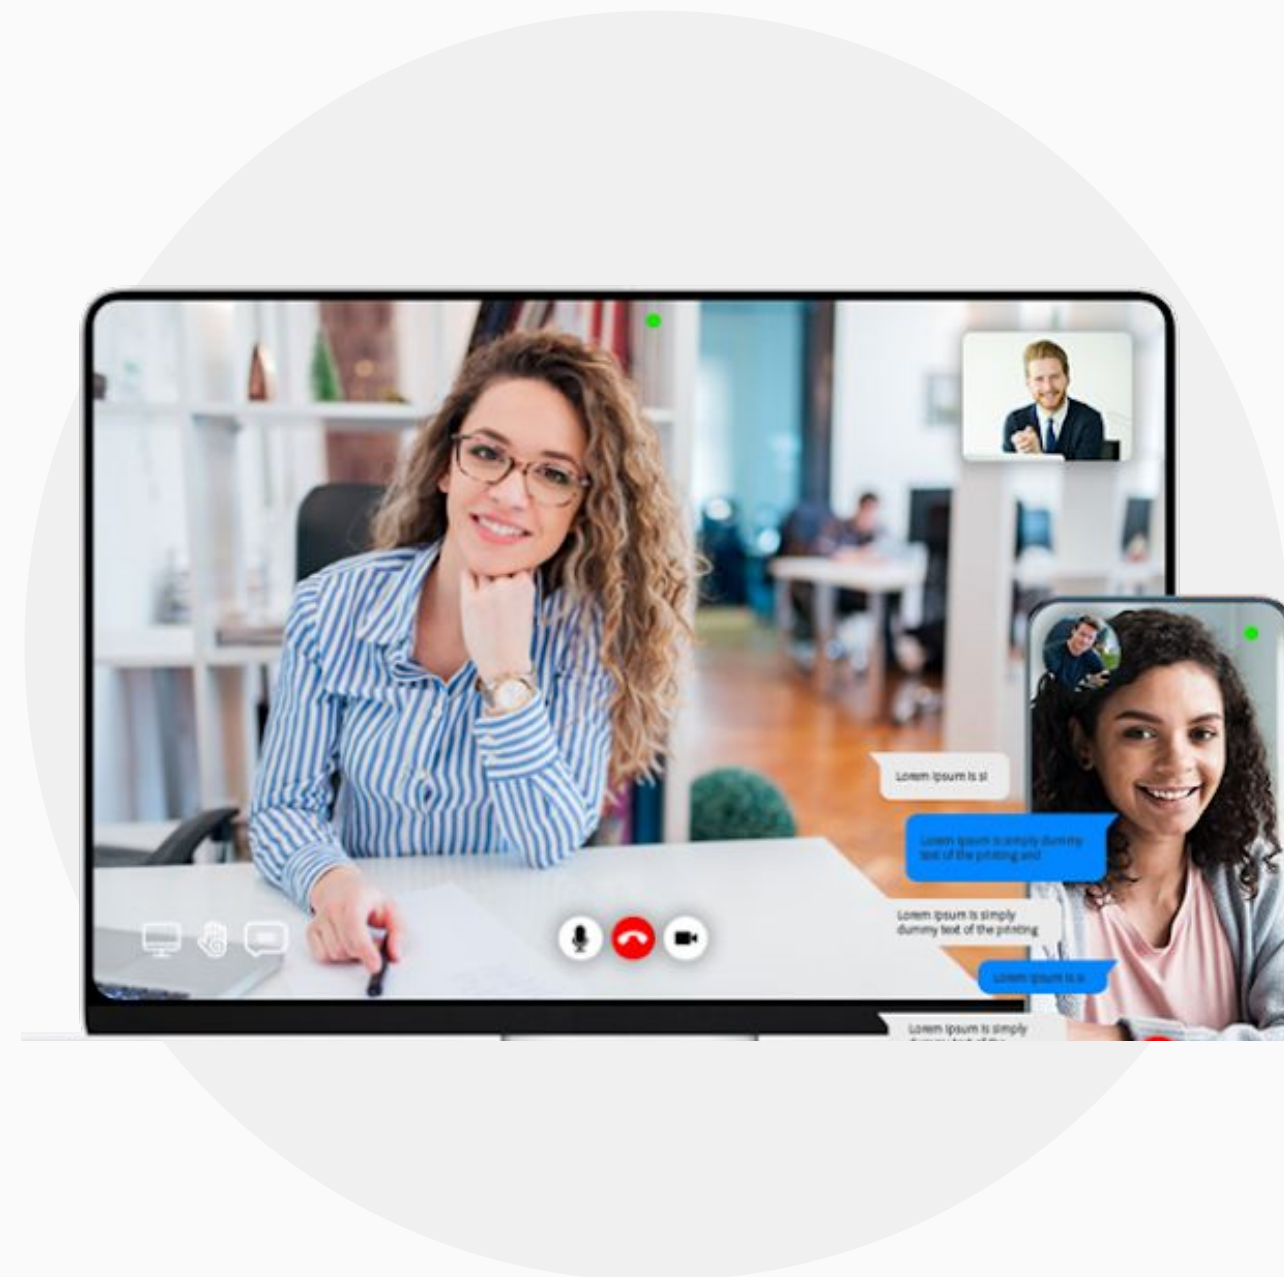

With Excellent User Experience

Be Part Of The Future

CONNECTION

White label virtual experiences with voice and video are the key to improving customer experience & drive revenues.

DATA

Data is King; Decisions are King Kong.
Own your customer interactions.
Leverage Machine Learning to drive decisions.

Client Solution

CHALLENGE

Hunter Digital is an Award-Winning Digital Marketing Agency Unhappy With Google Meet. Quality was an issue, and they had concerns about security and the privacy of their video calls.

OUTCOME

Hunter achieved significant growth in customers via their unique call-track-close method. Hunters teams use video sessions daily to engage with customers, enhance virtual experiences and get work done.

SOLUTION

SourceLogix Chime SDK solution was embedded as part of Hunter Digital's sales. Daily calls, video sessions and screen share were integrated.

Client Solution

The graphic features the word "satira" in a bold, teal, lowercase sans-serif font. To its right is a circular pattern of red dots of varying sizes, creating a halftone effect. Below the "satira" text is a circular portrait of a woman with long dark hair, wearing a green and blue patterned top, smiling.

satira

CHALLENGE

Satira technologies connects experts in the creative arts with their patrons. Their video & voice solution with TokBox was not scalable & error prone.

SOLUTION

SourceLogix Chime SDK is integrating AWS Chime Video, along with a deep and rich user interface to create a frictionless virtual experience.

OUTCOME

Satira customers benefit from the ease of use, seamless integration with appointments, and high quality and professional video chat sessions.

Client Solution

CHALLENGE

TBGA is a NYC based marketing and branding firm. They lacked tools such as recording and transcription to enhance webinars & educational events.

SOLUTION

Chime SDK was used to create a custom voice and video solution with the ability to record video or voice. Meeting speech was converted to text using AWS Transcribe.

OUTCOME

SourceLogix removed various friction points in video chats for TBGA. The customer liked the transcription capability with security and reliability that is powered by Chime SDK.

The logo for TBGA, with the letters T, B, G, and A in red, orange, green, and blue respectively.
